PRIME 4Kids&Family

Development of projects focused on children and family audiences in Feature Film, TV or interactive and cross media platforms and games

PRIMEHOUSE is delighted to open the call for this year's **PRIME 4Kids&Family** Workshop(former Pygmalion Plus). The MEDIA funded European program for writers and creative teams will support the development of projects for children, young people or family audiences. PRIME 4Kids&Family is designed to develop projects from an early stage and has proved a unique resource for professionals with a particular interest in these audiences.

Who can apply?

PRIME **4Kids&Family** is open to experienced professional writers or creative teams with a project targeted at a children's / family audience. Professionals working in script development may also take part as Team Support participants. Participants must be citizens of a member country of the EU MEDIA Program.

There are four places for team support participants who are usually producers, script editors or readers. They are attached to a specific group (feature film, TV movie, animated TV series, interactive media, cross platform projects, games) and work with the writers and the mentor offering support and assistance. This is an excellent opportunity to gain experience of the development process and a greater understanding of the writer's task.

For writers, PRIME **4Kids&Family** has proved an invaluable opportunity for professional development. For production companies and broadcasters it is a productive and cost-effective resource for project development.
